

Dayanithe G S

Full-Stack Developer — AI Developer — Web Developer

dayanithe11@gmail.com — +91 8072235598 — GitHub: DayanitheGS — LinkedIn: Dayanithe G S

EDUCATION

Velammal Engineering College, Chennai, Tamil Nadu

2023 – 2027

B.E. Computer Science and Engineering

CGPA: 7/ 10 (Current)

Bharat Matric Higher Secondary School

HSC Percentage: 68

PROFESSIONAL EXPERIENCE

AI Developer Intern — HiniSys

May 2026 – Present

Offline Internship — Stipend

- Developing AI-powered applications and intelligent automation solutions.
- Designing workflow automation systems to improve operational efficiency.
- Collaborating with development teams for testing and deployment.

Web Developer Intern — Dakh Edu Solutions

(Online)

- Developed responsive web applications using modern web technologies.
- Integrated APIs and databases to improve application functionality.
- Enhanced user experience through optimized interfaces.

Web Developer Intern — StackTech

(Online)

- Built and maintained web application features.
- Improved website performance and resolved technical issues.
- Collaborated with developers in project implementation.

SKILLS

Languages: Java, JavaScript, Python (Basic), C, C++

Frameworks & Technologies: React.js, Node.js, Express.js, MongoDB, REST APIs

AI & Automation: Prompt Engineering, AI Tools, Google Apps Script Automation, Meta Pixel Basics

Tools: Git, GitHub, VS Code

PROJECTS

VERNEXA — AI-Powered Vulnerability Analysis Platform

- Built an AI-powered platform that analyzes vulnerabilities and generates code remediation suggestions.
- Automated issue analysis and reporting using AI-assisted workflows.
- Improved developer productivity by providing actionable recommendations.

Student Attendance Registration System — MERN Stack

- Developed a full-stack attendance management application using React, Node.js, Express.js and MongoDB.
- Implemented attendance tracking, student management and database integration.

Weather Application — MERN Stack

- Built a responsive weather forecasting application using external APIs.
- Implemented real-time weather updates and city-based search functionality.
